PRESIDENT'S REPORT

Barring unforeseen circumstances, this is the last time I'll be putting my name to such a report. It seems like an eternity since I first accepted this role. As a result of discussion within the Committee, I shall not be disappearing completely. I must praise the members who make up the Club's present Committee, not forgetting those others who have been there in my time and before that. I wasn't going to list individuals, but would like to thank Stuart Penn, who has decided not to nominate again to make space for "new blood". Thanks for your input, Stu, your responses to issues and comments have often been the catalyst for us taking responsible action.

Among the changes since I joined has been an irregular newsletter becoming the monthly "Good Oil" under the editorship of Danny, Alec, Les and now Hamish. We are fortunate to have Mr Cooper's professional input, articles and photos thanks to his many contacts.

We have had changes in our meeting place and State Title venue, and the gradual incorporation of extra classes and newer periods in our program. I recall Period 4 being our latest, and our first 125cc Championship as a stand alone event in 1992. We have risen to the challenge of involvement in modern meetings, car events, Motorsport Festivals, Grands Prix, sprints and static displays, and I don't see any change in the Club's philosophy happening there.

In recent years we have revived regular Ride Days, which seem to be equally popular with our racers and those preferring a less competitive outing. If we can further enhance the camaraderie

that occurs when members and friends get together and everyone has had a ball, then we're on the right track. Building a bond with Ducati Owners' Club and allowing Atujara members (our "Les Diener" rivals) to participate is a win-win situation.

Let's just keep getting stronger!

Trevor Henderson

FROM THE COMPETITION SECRETARY

Before talking race stuff and track stuff, I hope members have given some thought to the upcoming AGM and the voting in of new committee et al. Even if you are not one to be on the committee you can still make an effort to support the club when events are being run and organised.

State Titles are at the forefront of the committee's agenda at the moment.

Ronna Fisher has kindly offered her time and had her license updated so that we have a level 3 race secretary in attendance as Marg Trotter cannot do this year! Ronna's condition is that she has help and to that a big thankyou goes out to Kate Clarke, who is giving her time up to do much of the work involved before and during the event, a golden opportunity to learn the ropes with good guidance from Ronna, thanks.

If you recall, last year Kate took on the role of gatekeeper and program seller, so yeah you guessed it, we are on the hunt to fill that spot this year!

The supp regs have been approved and will come out in due course, this year after much discussion etc it has been decided to run Period 6 bikes but to give the sidecars a break as their numbers have been oh so low last few years.

I got the tip that the Southern Classic sup regs have been approved and they should be forthcoming in next couple of weeks.

After much negotiating with the Sporting Car Club, I have had them agree to run bikes as part of the festival which is great. However I have just realized that they have again moved the event to early November! This clashes with The Southern Classic. Anyway I will see what we can come up with.

On a good note Phillip Island management have confirmed that they will again give us priority with garaging at next year's Island Classic. I need names and bikes to get it settled right out.

If you haven't been onto me re the track day at The Bend Friday 7th September, you need to get onto it quick smart!

Danny Ahern

TIM'S RIDE, Aug 26: A GREAT RIDE AROUND THE HILLS AND A GREAT WAY TO REMEMBER A GREAT PERSON. **DETAILS BACK PAGE.**

One Man's Replica that didn't break the budget

At last month's General Meeting our guest was Brian (Nip) Kuerschner, who brought along his AJS "10R" Replica. Why "10R"? Back in the days of Flat Tanks and the Giant-Killing 350cc "Big Port", AJS used the designation "7" for 350cc models and "10" for 500's. As Brian explained, there actually were "10R" machines produced in the 1950s at the request of a South American distributor. Although they were G45 Matchless bikes in AJS livery and stamped accordingly, this was no great stretch of the imagination as the G45 frame was practically the same as the 7R item, and the engine was a modification of the roadster unit available in both marques.

Brian had long wanted a 7R, but the cost of both a genuine bike and a race-replica were outside the budget. Ken Lucas offered one of the latter and, although not making a sale, played a major part in the supply of many significant items that characterise a 7R. Brian's first find was a 7R front number plate cowl at a swap meet, at first destined to be a shed talking-point, but later to have the rest of a bike hang off it. AMC roadsters provided a swing arm, "Jampot" rear shocks, gearbox, front forks and a donor engine, while Birmingham rivals BSA/Triumph supplied the conical hubs.

The distinctive fuel and oil tanks and drive case for magneto and overhead camshaft (though not used for the latter), had many believing they were looking at a pukka Ajay 7R, helped by Gavin Porteous' frame construction and the Eldorado-built seat.

The finishing touches, the little bits and pieces that can make or break a project do the former here, a credit to Brian's handiwork. We are fortunate to have been taken on the journey of this motorcycle from concept to reality.

**Thumbs Up to this bike, which certainly does Change Right.

Draft Minutes of the HMCRRSA AGM of 2017.

President's Report:

Trevor thanked the current committee members for their support during the year and recounted highlights of the past 12 months including the highly successful joint DOCA/HMCRRSA ride days and the club's participation in the Adelaide Motor Sport Festival.

Treasurers report for 2016/17:

Dean informed the meeting that increased costs associated with the running of the 2016 state titles had an adverse impact on income for the year. There had been increased financial support for riders including subsidised ride days and group pit garage hire for riders attending the Island Classic. A significant amount was spent supporting these events although some returns from one event license fees etc. moderated this expenditure. A healthy income received via membership fees. 2016 State titles resulted in only a modest gain in revenue compared to previous years. A full and detailed run down of the balance sheet for the past year was made available to members on request.

At this point in the proceedings, the President announced that all current committee positions be vacated and called on Phil Baughan to chair the meeting and undertake the role of returning officer for all new committee positions. Voting was via show of hands.
